### THE STORIES OF FAMILIES AT NEW GARBAGE DUMP SLUM COMMUNITY

Dear Brothers & Sisters In Christ,

Good afternoon from Phnom Penh Cambodia. How are you today our Brothers & Sisters? I pray that you and your family & Business are going very well in your Country. For myself and family, We all are doing very well here. Thanks.

Thank you Jesus for listening to our prayer. So now on the Phnom Penh City is opening...I can go outside of the city to do Ministry and visiting people and families who are living at the slum Community. After city is open about a few days, Yesterday I went out of the City to visited families who are working and living in the poor condition...Their working is easy to infect by Covid-19 Because their selecting all the garbage to find the plastic bags to selling to feed their own children...For every time I when there my heart is breaking, I saw family and children's working very hard 10-12 hours per day at the Garbage dump. So the money that I got is about (15,000 Riels - 20,00 Riels) If we counting in US Dollar is about (\$3.50 - \$5) Only per 10 -12 hours per day!

When I went there yesterday to visited them, I saw the flooding everywhere in the Slum Community, Their told me...their house has been flooding almost 3-4 months right now. So the reason of the flood by rainy season. They have to living on the flooding like this between 4 -5 months per year. They all are have no choice for living life, My heart is breaking again.... I pray to the Lord to blessings their families & Children and give their hope into their living by God. That's what I can do for so far right now. Thanks.

When I keep going to meet people in Community. So families and children, There are so happy to see me, I am also happy to see them as well. I went there about 2 – 3 Hours at that day. I talking a lot with many families and Children. There are a lot of people in the Community, I don't remember them all, but for all of them they remember me very well. I pray to the Lord to give me a good memorize to remember all of them. That's what I pray!

In the same time I also when to visited one family. She called me to get in to her house, And we start talking together...She told me about the family and her children, Is very hard for her to taking care of her own children in this Covid-19 situation. After I hear her Story is so sad....
